PROFILE

I am Mohammed Musthafa AM pursuing Bachelor of Technology in Computer Science and Engineering at Sahrdaya College of Engineering and Technology Kodakara, I am passionate about exploring the intricate realms of technology. With an insatiable curiosity and a drive for innovation, I immerse myself in coding challenges, theoretical concepts, and practical applications, striving for excellence in my field.

SKILLS

PROGRAMMING LANGUAGES

Python, Java, C, C++, Node.js

WEB TECHNOLOGIES

HTML, CSS, JavaScript, Express, React, Angular

DATABASE

MYSQL, MONGODB

TOOLS

GIT, VS CODE

PROJECTS

CODE A SMILE

Developed a simple Web App system using HTM, CSS, JAVASCRIPT and MONGODB. The system enables meal transfers without physical currency exchange, emphasizing security, user interaction, and portability. Users register and obtain temporary codes for transactions. It features a user-friendly interface with tutorials, ensuring convenience and accessibility across diverse web configurations.

MEDIAID

The "MediAid Access" project merges Gen AI and Ethereum blockchain to revolutionize healthcare accessibility. It envisions personalized care and robust security. Key features include telehealth consultations, medication management, emergency response, health data monitoring, and accessible information delivery. The project aims to redefine healthcare for elderly and handicapped individuals.
